# Introduction

By registering on the Comtrade website, the user confirms the reading, understanding, and accepting of all terms and conditions contained in this document. Disagreement with the premises of this document, which involve additions, changes, and updates without prior notice, prevents the user from having access to the services offered by Comtrade, as well as full access to the company's platform.

By not complying with the obligations in this document enables Comtrade to break interests with the user, without the need to suffer penalties on recurring attitudes. For other reasons, the appropriate measures are introduced in each case.

# 01.

## About Comtrade

Comtrade is a company that provides direct services of automated trade. Its principles are based on union and integrating the public to the cryptocurrency scenario, a world that is having even more visibility on social communities.

The company feels the need to acquire territory over this reality because it believes in the social change in how finance and government actions relate. The counterpoint is that the company believes in the independence of the financial system and profitability of government entities.

# 02.

## Automated Trade

The ones who are in the cryptocurrency world saw the need to automate the activity of buying and selling cryptocurrencies by seeing greater yields guaranteed in shorter periods of time through automation. With the advanced profitability, it is possible to energize the world of cryptoassets, so that its worldwide influence gets faster.

The realization of automated trading is given by the presence of a set of programming codes (algorithms) that allow the quick calculation of equations involving the processes of selling cryptocurrencies in their moments of high appreciation and buying them in moments of low appreciation. The balance of these transactions takes the profit of the beneficiary.

# 03.

## Earning Methods

Comtrade promotes earnings in its platform. The user must have full knowledge about the bonuses (items a and b), in order to improve the working of them in the network.

It means that the user must know that the earnings will depend on the way the network is managed. Comtrade is ready to direct the user towards success, but this does not imply a default on the level of dedication required by our platform.

## 03a.

### Direct Indication Bonus

Comtrade works with the indication bonus system. For every new person indicated to the platform, who purchases one of our plans, the user who indicated automatically receives **5%** of the amount applied by the new user. This is valid for every user who indicate, even if they are below another sponsor, that is, even if they are already an indicated user.

This way, the user must be fully aware of this bonus system and Comtrade will not be held responsible if any of the criteria for this type of bonus is not met.

# 03b.

## **Binary Bonus**

Another type of bonus granted by the company is the binary bonus. By registering on the Comtrade platform, the user is already able to create its own earning network. This network is made up of all of the indicated users, as well as those indicated by the new user.

The term binary refers to a double layer configuration. This means that over time, as you expand your network, it will automatically be split into two parts, consisting of fewer users on one side and users with more applications on the other one.

For this side with fewer applications, the user will have the right for 7% of all network yield below him.

From this Terms of Use, the user should be equally aware that our system automatically arbitrates the division of the network, in a way to better grant bonuses and protect the interests of the company.

# 04.

## Career Plan

Comtrade provides great growth benefits within its platform. Our career path is the path for those with high ambitions. The more the user applies, the more points are gathered and the more points the user receives. As the user qualifies, the awards will be given accordingly and the events that come up will be dedicated exclusively to those who dedicate themselves to the company.

The user must know that to qualify, it is necessary to purchase EST plans, which go from **15.000EST** up to **1,200,000EST**. **Each Easticoin gives 1 point. The points are not cumulative, and a monthly re-qualification is necessary!**

Qualification	Points	Award	Restriction
Sapphire	15 Thousand	<b>250 EST</b>	-
Emerald	60 Thousand	<b>750 EST</b>	Have one Sapphire in your network
Diamond	150 Thousand	<b>2,000 EST</b>	Have one Emerald in your network
Blue Diamond	300 Thousand	<b>5,000 EST</b>	Have one Diamond in your network
Black Diamond	600 Thousand	<b>10,000 EST</b>	Have one Blue Diamond in your network
World Diamond	900 Thousand	<b>25,000 EST</b>	Have one Black Diamond in your network
Imperial	1,2 Million	<b>60,000 EST</b>	Have one World Diamond in your network

# 05.

## Easticoin

Comtrade fully works with the cryptocurrency Easticoin. We have total credibility to point this digital asset as one of the cryptoassets with a higher growth rate in the market.

Easticoin has several expansion projects, which promise to revolutionize the way we see finances in the current society. This way the user must know that our platform gives EST exclusivity. The development work will happen through the Comtrade community.

# 06.

## Events

Occasionally, unmissable events will emerge within the Comtrade platform. These events are intended to provide users with unique awarding experiences and recognition for their success.

Comtrade emphasizes that the realization of possible events does not force the company to cover all users of the platform, as these are exclusive events. Also, the company is not responsible for not meeting the pre-established conditions for the participation of the events.

# 07.

## Newsletter

Well-informed users strengthen the relationship between company and customer. We want to train our users to be increasingly aware of the cryptocurrency market and scenario. Therefore, we will release constant updates about the cryptocurrency universe and company news.

However, this prohibits users from requiring the company to provide specific information because the posting character is set by the Comtrade team. Similarly, users are not allowed to complain about shared content, since the level of information already disclosed about the world of cryptocurrencies is scarce and therefore may be repetitive.

# 08.

## General Restrictions

The users are strictly prohibited from attempting to modify any tool and/or function within the Comtrade platform. Our team of technicians are specialized in program development and therefore has full knowledge of how the platform must work. In addition, any attempt to modify the platform's functionality will be categorized as a cyber attack attempt, and such acts will be considered within the scope of international cybercrime laws, as well as banning the user.

### **It is also prohibited to:**

- a.** Attempts to assume another person's identity, whether individual or legal;
- b.** Use of personal or registration information of third parties, in order to damage the person's image when making disclosures, transmissions, and other actions performed without prior authorization of the affected party;

- c. Make content unauthorized by Comtrade available that may damage the Company's image or compromise the services offered. Activities such as spam and/or junk mail are not tolerated;
- d. Use the systems and services offered by Comtrade to generate equivalent or similar competition in the cryptocurrency market;
- e. Have access to sensitive information from other users and;
- f. Other activities that may affect the proper functioning of the company's functionalities.

# 09.

## Support

For any possible technical issues regarding Comtrade, we have a support team available to solve them. The company is not responsible for matters that are outside Comtrade's competence, and it is explicitly necessary for the user to be aware if their problem can be solved by our support team.

# 10.

## Final Considerations

Any details momentarily disregarded by Comtrade will not imply renewal, waiver or modification of obligations placed on users. Also, any activity not stated in these Terms of Use will not exempt the user from complying with the other prohibitions and obligations contained in this document.

Comtrade is not responsible, in any way:

- a.** for fully ensuring the success of users' transactions;
- b.** for eventual incompatibility with any third party software or operating system used to access the platform;
- c.** for eventual problems caused by poor connection to the users' internet server. This applies to the stability of the server hired by the user;
- d.** for problems generated by the misuse of our services;
- e.** for any activities that do not relate to the company's competence.

Comtrade might modify these Terms and Conditions without previous notice and without noticing the user. The user is responsible to frequently consult these Terms of Use for any eventual update. By registering on the

Comtrade platform, the user accepts and agrees to all contractual terms set forth in this document. The services provided by the company are not allowed in the following countries: Brazil, the United States of America, Bolivia, Venezuela, Cuba, North Korea, and the United Arab Emirates. By reading and agreeing to the terms and conditions, the User declares being aware of these conditions. If the user does not agree and/or do not accept the contractual terms, the user may at any time request the termination of your relationship with the company, which is generated through the account registration. The date of change of these Terms of Use will be available in this document and on the Comtrade website.
